Professional Experience

Oct 2022 – present Lagos, Nigeria	**Frontend Developer,** *Hotels Nigeria (HNG)* • An internship program where I work with a team of developers comprising product designers, frontend developers, backend developers, DevOps and marketers to develop a product called DevAsk. • Devask is a platform where developers come to ask questions and get answers from fellow developers. It stands like a merge of stackoverflow and Twitter having a technical as well as a social touch. • Features implemented include a tag system, tokens as rewards for answering, a ranking system and follow.
Feb 2022 – Dec 2022 Remote, Nigeria	**Frontend Training Mentor,** *JustProjects* • JustProjects is a platform that sprouted from a Telegram group where my peers and I, in the developers' journey took in newbies from different tracks and gave them a soft landing into web development and tech in general. • It was a beginners' training, free of charge and a way to give back to society.
May 2021 – Aug 2021 Lagos, Nigeria	**Fullstack Developer Intern,** *I4G-Zuri* • This was a 4-month fast-paced program in web development applying knowledge of HTML, CSS, Bootstrap, JavaScript and Django. • The last project was the design and development of a terms and conditions/privacy policy generator where business owners can go and easily get well-constructed terms and conditions/ Privacy policy specifically tailored for their business. • I made use of collaboration tools like Github teams, GitHub Organization, Vscode LiveShare etc. I acquired a lot of soft skills too.
Jul 2020 – Sep 2020 Remote	**Virtual Assistant Intern,** *ALX VA* • Under the mentorship of very dedicated facilitators, I acquired a lot of soft skills. I call it "The ingredient that makes work smart and more productive". • The use of google tools to work and collaborate with team members enables one to work from anywhere. • Assisting project heads to keep the work organized and on track is a skill I acquired from this program too.

Projects

Nov 2022 – present
DevAsk, *HNG project* ⬈
- Devask is a platform where developers come to ask questions and get answers from fellow developers.
- It stands like a merge of stackoverflow and Twitter having a technical as well as a social touch.
- Features implemented include a tag system, tokens as rewards for answering, a ranking system and follow.

Feb 2023 – Feb 2023
DJ Suggest, *Fun project* ⬈
This project gives the DJ an opportunity to interact with the clubbers and ge music suggestions from them in real time.

Oct 2022 – Jan 2023
Softwork, *ALX portfolio project* ⬈
- Softwork is intended to be a platform for professionals to both assess and develop their soft skills for thriving in today's industry.
- This product has a wide range of target users ranging from students, job seekers, and established professionals across diverse fields as the soft skills considered intersect with all disciplines.
- The soft skills available to be tested on Softwork are: Communication skill, Listening skill and Critical thinking skill.
