🎓 EDUCATION

2022 Remote	**Software Engineering Diploma (In view),** *ALX Holberton School* A diploma in Software Engineering to help grasp the theoretical and practical aspects of programming.
09/2011 – 10/2016 Lagos, Nigeria	**B.Eng.,** *Nnamdi Azikiwe University, Awka, Anambra State*
10/2020 – 11/2021 Lagos, Nigeria	**M.Sc,** *Lagos State University, Epe, Lagos State*

💼 PROFESSIONAL EXPERIENCE

11/2019 – present Lagos, Nigeria	**Senior Process Engineer,** *Dangote Petroleum Refinery and Petrochemical* Member of the Pre-commissioning and Commissioning team for Polypropylene unit which entails :- Supervision of the final construction work and ensuring the loops conform to the P&ID, Blowing and blasting of lines, calibration of instruments and analysers, Function test-run of the instruments and motors
07/2022 – 09/2022 Remote	**Virtual Assistant Intern,** *ALX VA* Under the mentorship of very dedicated facilitators, I acquired a lot of soft skills. I call it "The ingredient that makes work smart and more productive". The use of google tools to work and collaborate with team members enables one to work from anywhere. Assisting project heads to keep the work organized and on track is a skill I acquired from this program too. The eight weeks I invested in this program were well utilized and so worth it.
05/2022 – 08/2022 Remote	**Fullstack Developer Intern,** *I4G-Zuri* This was a 4-month fast-paced program in web development (front-end and back-end). Under the mentorship of an amazing team of trainers who despite the seriousness of the engagement still managed to make it all fun, I was able to develop websites applying knowledge of HTML, CSS, Bootstrap, JavaScript and Django. The last project I did alongside some other team members was the design and development of terms and conditions/privacy policy generator where business owners can go and easily get well-constructed terms and conditions/ Privacy policy specifically tailored for their business. I learnt and experienced the beauty of team collaboration with the help of collaboration tools like Github teams, GitHub Organization, Vscode LiveShare etc. I acquired a lot of soft skills too.
05/2015 – 10/2015 Kwale Delta State, Nigeria	**Student Industrial Attachment,** *Sterling Exploration and Energy production Company (SEEPCO)*

📁 PROJECTS

06/2022	**Terms and Conditions Generator,** *I4G-Zuri Internship final project* A website where business owners can go and easily get well-constructed terms and conditions/ Privacy policy specifically tailored for their business. Extra features like multi-language display, audio function and ability to embed content.
09/2022	**Multi-Authored Blog,** *Study-group project* A multi-Authored blog with the CRUD functionalities in place with extra features like bookmark and archive.
09/2022 – present	**AirBnB Clone,** *ALX sprint 2* A clone of Airbnb website both frontend and backend with all the database and functionalities involved.

🧠 SKILLS

Technologies

React || Javascript || Django || Python || C || SQL

Soft Skills

Virtual assistance || Google suites || Creative and innovative || Team player || Excellent Communication || Efficient time manager
